

K-love is a great station- It serves me in my Christian walk with God the songs are very challenging to me to stay on the right track even when the storms in my life are trying to trample me down.

The effect that the community will feel if k-love is no longer on the radio- It will leave the world at a great loss. People are always looking to fill that "void" that they have inside but they run to the wrong things and wrong people to help them fill that hole. Instead of people being able to know that there means something and they mean something to a Great Big God that wants us to know that He Loves us and was to be a guide for our lives - by removing k-Love its like removing God from this earth and living in a world without GOD.

The service that K-love provides- is a train of blessings it travels from State to State letting people there is God and there is peace you can receive and a salvation ticket for everyone that wants God in their life. Among all of this misery that this world has- people can know that there is hope and brightness in the sight of misery. I pray that God will change you hearts and minds to see that this station is a great need for this world and that its has changed many lives and will continue to touch lives till our Lord and Savior returns to this earth. In Christ's Love. Joann Zamora.
